RENEWED PETITION UNDER 37 C.F.R. 1.47(b)

Mail Stop PCT
Commissioner for Patents
Office of PCT Legal Administration
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This Renewed Petition Under 37 C.F.R. 1.47(b) is being submitted in response to the Decision mailed on February 8, 2008, which dismissed, without prejudice, the Renewed Petition filed on October 16, 2007, which was filed in response to the Decision mailed on May 16, 2007, which dismissed, without prejudice, a Petition by Person Having Proprietary Interest to File Application on Behalf of Inventors Who Refuse to Sign or Cannot be Found under 37 C.F.R. 1.47(b), which was filed on March 2, 2007. The two month deadline to respond to the present Decision is April 8, 2008.

The present dismissal is based on the fact that petitioner has not established that a bona fide attempt was made to present a copy of the application papers, including the specification, claims and drawings to inventor John Fox. Also, the PCT Legal Examiner requires a declaration from Nancy Johnson, a paralegal employed by TraskBritt, stating that the complete application papers, including the specification, claims, and drawings were included with the letter sent to inventor Errol O'Brien on September 20, 2007.

On March 14, 2008, a letter was delivered to John Fox via Federal Express. Enclosed with the letter were the complete application papers, which include the specification, claims, abstract, and drawings; a copy of the PCT Request that accompanied the PCT Application; a copy of the Transmittal Letter to the United States Patents and Trademark Office; and a Preliminary Amendment filed with the Transmittal Letter on June 23, 2006. Attached hereto as Exhibit "A" is a copy of the letter and Federal Express delivery notification.

John Fox has not contacted me in regard to the application papers.

Attached please find a Declaration signed by Nancy Johnson which states that the complete application papers were included with the letter to John Fox.

Also enclosed herewith is a second Declaration signed by Nancy Johnson which states that the complete application papers, including the specification, claims, and drawings were included with the letter sent to inventor Errol O'Brien on September 20, 2007.

We respectfully request that Examiner issue a decision granting the Renewed Petition as soon as possible.
